

Organizer

Shows the objects in your publication - use this like an Explorer tree view. Select, reorder and rename the objects in your publication including pages and chapters.

Objects at the top of the tree appear over those below it and are drawn first. Drag and drop to change order.

Tabs allow access to Actions Organizer, a thumbnail view of your pages, page templates and other readymade components.

Tools Toolbar

Toolbar providing tools to select and create the objects on your page - arrow beside means additional tools on flyout.

Hover over each to get a tooltip see also the status bar at bottom of screen.

Worth noting:

Resize Mode - allows you to resize groups of objects together on a frame.

Frame - group objects together

Multiframe - a controllable slideshow of grouped objects

Tween - a frame for objects to be animated

Hotspot - add action to part of an image

Video - YouTube has a separate tool on the flyout

Browser (also DocView) - for viewing documents from other programs or the internet. You can also use the Launch action to display PDFs, DOCs, PPTs or webpages but check the Help file for instructions on how to ensure they can be located once published.

Standard File Menus and Toolbars including text formatting.

Vector editing tools

Line style, width and arrowheads

Preview Page/Publication test your interactivity instantly

Object properties: background, shadow flare, transitions

Page Editing Window

Layout each page here, simply draw the object onto the page, resize, rotate and skew.

Type text directly onto the page

Tween Timeline

Set up the activity and keyframes of tween animation. Shows frame numbers and keyframes. Right click for actions.

Notes View

This section also includes a section to hold presenter or developer notes for reference only - not included with publication.

Colour Palette

Select colours for text and drawing tools. Tabs provide different ranges. Use the dropper to pick a colour from on screen or the X for none.
